FOR MISSES

Twin to a Paris import that was priced 165.00, sister to frocks no more charming now seen on the Avenue at double its modest price.

It is unusual to find the gown of one's wishes at the price of one's hopes. Yet here it is—an afternoon frock, a matinee frock, for the gay little affairs of this bright season. The excellent quality taffeta is shirred into a basque bodice, and fashioned outstanding over the hips, puffy and bouffant. It is delicately softened with an apron tunic and bib collar of antique patterned filet lace. It is hard to speak well enough of a dress that speaks so well for itself. Sizes 14 to 20 years.

This is all that Swift & Company's profit cost the average American family in 1919.

Here are the figures and authorities for them.

The average consumption of meat per person for a year is about 180 pounds (U. S. Government).

The average American family is 4½ persons (U. S. Census).

Swift & Company's profit from all sources in 1919 averaged less than ¼ cent per pound on all products including meat.

This averages for the family less than the price of—

- 1 cigar per week for father, or
- 1 street car fare per week for mother, or
- 1 package of gum per week for the children.

The complex service which we furnish the public is efficient and economical. The cost to the public in the shape of profit is too small to be noticeable in the family meat bill.
